

# Sage Accounting Solutions

## Data Sheet

### Sage Line 50 Business Suite

The Sage Line 50 Business Suite range offers a choice of 2 packages, each providing an integrated solution to manage all your accounting, payroll and Contact Management functions. These business suites provide a complete answer to the needs of growing companies, allowing information to be transferred between products, saving time and improving accuracy of data. Each business suite offers a substantial saving over the cost of the individual products, thereby providing a value-for-money integrated business system.

At the heart of the business suites lies the Sage Line 50 accounting product - either Accountant Plus or Financial Controller. As well as all the functional accounting features you would expect from market-leading software, the Sage Line 50 range comes complete with handy wizards and Microsoft Office integration. Accountant Plus covers all your core accounting requirements, Financial Controller contains additional features such as sales & Purchase Order Processing, and Foreign Currency support.

Sage Payroll is also included in each of the two business suites, enabling the payment of up to 100 employees quickly, easily and accurately. You can rest assured that Sage Payroll is completely up-to-date with government legislation and will meet all your statutory requirements. Finally, as customer relationship management is such an important part of business, Sage ACT! for Line 50 is included in each of the two business suites. As well as putting key customer information at your fingertips, ACT! for Line 50 helps you manage all the tasks related to developing and maintaining business relationships.

## Sage Line 50 Business Suite - Key Features and Benefits, in brief:

### Sage Line 50 Accountant Plus Business Suite

This package includes Sage Line 50 Accountant Plus, Sage Payroll (single user/100 employees) and ACT! for Line 50 (single user). It is the ideal solution for businesses that require an accounting package with full stock and invoicing functionality, a payroll solution that can process employee wage payments for up to 100 employees, and a contact management solution that integrates with the accounts package. This integration allows staff to process and transfer information quickly, easily and without the need to re-key data.

### Sage Line 50 Financial Controller Business Suite

This package includes Sage Line 50 Financial Controller, Sage Payroll (single user/100 employee) and ACT! for Line 50 (single user). It is ideal for businesses that require an accounting package with full stock and invoicing functionality, as well as comprehensive sales and purchase order processing modules and Foreign Currency support. In addition, this suite also includes a payroll solution that can process employee wage payments for up to 100 employees, and a contact management solution that integrates with the accounts package. This integration allows staff to process and transfer information quickly, easily and without the need to re-key data.

### Integration

The fast and simple integration afforded by the Sage products in each business suite means that less time is taken up by repeated data input in different software packages. It also means that accuracy is improved and records can be cross-referenced; e.g. viewing the financial status of a customer from within ACT! for Line 50, due to the integration of the product with your Line 50 accounts. Information can also be exported into Microsoft Office products (Microsoft Outlook, Excel and Word) for further analysis. The accounting software is also compatible with Sage e-Business products, enabling online marketing and trading.

### SageCover

SageCover ensures that you always have someone to turn to for the help and advice you need to get the most out of your products. The Sage customer support centre has a staff of over 300 software specialists ready to help you. With a dedicated support team for each Sage software product you can be certain of talking to someone who knows the best way to answer your question, whether it is a basic enquiry or a more complex query. SageCover also encompasses free software revisions, online & e-mail support and business advice. SageCover is an optional but recommended addition to the Sage Line 50 Accountant Plus Business Suite and the Sage Line 50 Financial Controller Business Suite.
